## Example of programme

**The island of Réunion is a very young volcanic island and thus very rich as regards natural landscapes. Indeed 60% of its territory is perched in the mountains.** It is besides the zone which corresponds to the national park tops. It is also the **window on the “Natural heritage of UNESCO” of Reunion. ...**

**Day 1: – ARRIVAL AT ROLAND GARROS-AIRPORT IN SAINTE-MARIE –**

Arrival at **Roland GARROS airport**. You will be welcomed by our representative and given all the documents needed for your stay (voucher, maps, travel guide...) and transferred on an air conditioning vehicle, to your accommodation according to your choice. Rest of the day free, for resting. Dinner & overnight.

**Day 2: – EXCURSION TO SALAZIE –**

Breakfast and departure heading for the North.

This region abounds in activities, it is the **economic lung of Reunion**. Once exceeded the thirteen kilometers of the famous road to the coast, the passage by the administrative center with its buildings dating the time of the East India Company, its airs of the metropolis and its bourgeois charm, will give way in **green fields of saint Marie's sugar cane**.

**Near the East**, the phallic and colorful architecture of the Indian temples will delight the first looks. The senses will be tested severely. Aromatic pods are for the program: the exploitation of mister Rouloff's vanilla plants (suggestion), the epic of his panniers and all the sharpness of its preparation, such of balms delicious, will invade your senses until exhilaration during this discovery.

**The access to sales is a succession of surprising landscapes**, the green is omnipresent. One thousand essences, one thousand waterfalls, one thousand flowers will paper roads until the top, until near one thousand meters. The village which honors the governor of Hell, is in itself, a whole museum of Creole architecture: acute ridgepoles, shingles of tamarind, delicious valances and other opening "Z", will request ceaselessly your will be on drugs and cameras.

At the end of the day return to the coast, to your Hotel dinner and overnight.

## Day 3: – EXCURSION TO CILAOS–

### CILAOS CIRQUE

#### An Island in an Island

**Higher altitude:** 1300 metres **Temperatures:** 12 to 24°C

**What to wear:** good shoes or walking boots, rainwear, pullover, and sun lotion.

Departure to the south of the island. First stop at the « blower » along the rocky coast to admire beautiful kind of white foam geysers, resembling a whale's spout.

The pretty village of La Rivière Saint-Louis will be the last one before entering Cilaos Cirque. The pleasure starts with the road that plunges onto the bottom of Saint-Etienne' river. This very picturesque road built in 1932, leads you to a particular beauty spot, a geological curiosity. Cilaos is the most southerly and driest cirque of the three. The sky is more frequently clear there and its slopes have fewer waterfalls. In 1845, a path with difficult access is opened to pedestrians and oxes. In 1896, the thermal baths set up and, as far as a suitable road for vehicles was built, the journey to Cilaos was achieved on a "sedan chair" but Cilaos village is situated at 1200m!

The ascent by the "**400 bends road**" offers exceptional lookout points with breathtaking views of the several hamlets. When you finally reach the village dominated by the highest summits (the majestic **Piton des Neiges** 3070m, Grand Bénare 2896m, Trois Salazes 2121m), you'll feel as if you were exploring a village of yore, with its old houses surrounded by flowery yards and gardens which in the hot season, look like a colourful artist palette: jacarandas with mauve shadings, dahlias, azaleas, roses, hydrangeas, mimosas... Cilaos is also famous for its hydropathy establishment, its magnificent embroidery, its wine (the only one produced in Reunion) and its lentils. Various walks invite you to go in search of this paradise. You reach the best view on the cirque by taking a forest path to "**La Roche Merveilleuse**" (or by car or by bus). From up there, you overlook the whole cirque, the village, the paths, and the forests... It is also great to discover the thermal baths, both the old vestiges dating back to the 19<sup>th</sup> century to which you can accede via a picturesque road and the new facilities for spas, health and fitness.

After a possible lunch (own), you'll have a glance at an ancestral activity, the "**Embroidery**". Discover "les Jours de Cilaos" those beautiful pieces of art made by these princesses of the cirque. On the way back, in the late afternoon, you'll stop at "the whirlpool" at L'Etang-Salé, and return to your hotel around. Dinner and overnight.

#### Day 4: – LEISURE DAY TO ENJOY THE SEASIDE OR THE HOTEL–

Day free for enjoying the swimming pool of the hotel or the seaside. Leisure activities are available on request on arrival (helicopter ride, diving, transparent kayaking, paddle..). Lunch free and dinner free. Overnight in the hotel.

#### Day 5: – EXCURSION TO THE VOLCANO –

##### The green, the red and the grey

**Higher altitude:** 2300 metres **Temperatures:** 15 to 23°C

**What to wear:** good shoes or walking boots, rainwear, pullover, mosquito lotion and sun lotion The freshness of the morning departures will be quickly replaced by the natural heat of volcanic sites. The route roads West unveils a coastline where the placid shores and steep escarpments take turns to St. Peter.

Here begins the ascent to the tops of the Plain of Cafres, and those of the Great Ferme. Heather, gentian, villages, pastures, cows, forests is the sets to "Nez de Bœuf" to 2 070m. There lies a confusing valley **22km geological surprises.**

The gaping hole in the Commerson crater is decorated with many rocks as question marks. This amphitheater dreamed geologists announced the first of the more surprising discoveries.

The culmination of the day will be taken at 2 360m above sea level. Those out of work finished, the scenery will be brutal. Plaine des Sables things to strike you as a challenge to the vastness, it's like a step back, we went from the Earth to the Moon. Return to hotel around 5:30. Dinner and overnight

#### Day 6: – EXCURSION TO THE WILD SOUTH –

##### The blue, the black and the green

**Higher altitude:** 320 metres **Temperatures:** 22 to 23°C

**What to wear:** good shoes or walking boots, rainwear, pullover, mosquito lotion and sun lotion.

Departure in direction of Saint-Pierre, where the leeward coast becomes the windward coast and takes another colours and a very special animated atmosphere. You follow the road to **"Grand Anse"** creek, with its beach bordered with coconut palms, a real heaven of peace. Every weekend, the brand newly married couple investigate the place for the pictures. The many

lookout points afford the enjoyment of discovering this charming part of the island: Manapany, Langevin, and **“Cap Méchant”**: there the ocean crashes in impressive waves against the jagged black lava cliffs. A little bit farther,

crossing the bottom part of the coloured wood forest, you discover, at the foot of the volcano, the recent lava flows.

After a possible lunch (own) In the afternoon you will enjoy a total landscape breaking up with the **“Great Burnt Land”**: actually, the tropical exuberance makes way for a much more mineral environment.

Lots of those rivers of lava increased the island over the ocean of tens hectares! The whole region has a strange atmosphere to it, due perhaps to the fact that no dwelling can be seen for about thirty kilometres. **Then possibility to visit “le Jardin des parfums et des épices”**. (Spice and fragrance garden as suggestion). You’ll explore hundreds of species of native exotic plants including many medicinal, ornamental and fruit spices, some of which being a century old. A guide with a perfect knowledge of the garden and of its history will take you round the place and initiate you to the manual pollination of the vanilla flower (October to January). ## Description of excursions and optional activities available on request

Reunion island is a volcanic island which was born from successive submarine eruptions, from a hot spot located down the Indian Ocean grown.

As a consequence 3 million years ago the snow peak emerged from the water. It shaped the island for years, but today has become a dormant volcano.

Because of this lack of activity it started to suffer from erosion.

Indeed as it was no longer provided with deep coming lava from the hot spot, the slopes of the volcano collapsed and opened the former magma chambers to the air. Under the effect of the wind and rainfalls, those ones took a circular shape. This was at the origin of the so called 3 cirques.

Salazie, Cilaos and Mafate. It is about the heart of the world heritage area of the island, with unique landscapes designed mother nature. An area protected by the National park of Reunion. This one also includes the next door very active second volcano, the Furnace peak which erupts 3 times a year on average...these are as many occasions to attend a sort of genesis all the process...

In order to enjoy such uniqueness and diversity of landscape and bio diversity owing to the relief and multiple micro climates, excursions are available to make you experience this magnificent piece of jewellery of the Indian Ocean:

## Cilaos cirque every Monday and Thursday based on sic price on request

Morning departure to the South West. First stop in Saint-Leu surroundings along the rocky coast to admire a natural curiosity, the “Souffleur” which means the “Blower”. It’s a beautiful kind of white foam geyser, resembling a whale’s spout. Then crossing through Saint-Louis: its factories, its mosque, its Hindu temple and its church. We will leave the RN 1 direction to the mountains.

After the crossing of the pretty village of la Rivière Saint-Louis with its traditional Creole huts and its gorgeous gardens “à la Française”, we enter in the Bras de Cilaos Valley where takes place the renowned “400 bends” road! You will marvel at this setting! The site uniqueness eases the ascent apprehension, and the ascent to the hamlets is really comfortable.

The narrow tunnels, the majestic and graceful Peter Both, the unusual village of Palmiste Rouge, the dizzy ramparts and the lush summits will make you forget the time. Because time in this landscapes are eternity fragments that nobody wants to count!

Here is Cilaos at 1300 metres of altitude on average! Thermal, sporty and farming city, it’s above all the place where exists the highest French wine lands! The Chamonix twin is a heaven. From la Roche Merveilleuse site, we overlook the whole Cirque, and beyond the legend, the spectacular views will exhausted all the superlatives that you could know! After the handcraft visit of the « Jours de Cilaos » (suggestion), an embroidery house and a possible lunch (own), we will get back to the coast.

Whitewater Rafting. Photo by Wikimedia Commons.

One of the extreme sports that are prized in Reunion Island is white water rafting. People are attracted to the sport because it puts them in direct confrontation with the forces of nature. White water can best be described as a portion of turbulent water, generally flowing down a slope. The rapid movement of the water makes it difficult to navigate in, because of the speed and the obstacles that can get in the way. This span of water is generally navigated with the help of a PVC or rubber inflatable raft. These rafts can carry up to twelve people thus making rafting the ideal group extreme sport that can be practiced with friends and family.

Even if the sport is very exciting and rewarding, nobody should under-estimate the forces of nature and the sport can become dangerous if people are not careful. The rapids are thus classified according to their difficulty and so that they can be chosen by according to the rafter's experience.

When someone starts rafting, it's best to start on an easy course and then progressively move on to the more difficult ones. For new-comers, it would be best to seek out the services of experienced guides that can be found near their hotel to ensure their safety during the trip.

So, what are you waiting for? If you're on holidays in Réunion Island and are looking for something new and exciting to do, why not try white water rafting?

## Particularité de nos séjours et voyages

Vu le caractère particulier de nos séjours chaque participant est pleinement conscient que durant ces voyages il peut courir certains risques inhérents à la pratique de l'activité (altitude, moyens de communications, éloignement des centres médicaux, etc ...). Chaque participant déclare assumer ces risques pour lui, ses ayants droit et membres de sa famille en toute connaissance de cause et par conséquent, s'engage à ne pas reporter la responsabilité de ces risques et les accidents qui pourraient survenir sur ETHNIX TOURS, ses guides et ses prestataires locaux. Ceci est également valable pour des comportements personnels imprudents, départ volontaire pendant le séjour ou non respect de nos programmes et de nos recommandations. ETHNIX TOUR se réserve le droit d'expulser tout participant dont le comportement pourrait mettre en danger la sécurité du groupe ou le bien être des autres participants. Aucun remboursement ni indemnité compensatoire ne sera versé.

### **Séjour encadré :**

Chaque participant doit se conformer aux conseils et consignes données par l'encadrant représentant de l'agence, (guide de haute montagne, accompagnateur, moniteur). Sur place, ils sont les meilleurs juges, ils peuvent être amenés à modifier l'itinéraire en fonction de la météo ou si la sécurité du groupe le nécessite.

### **Séjour liberté :**

Il s'agit de circuits vendus sans encadrement ou guide.

Pour des raisons de sécurité tous les séjours liberté ne peuvent se faire qu'à partir de 2 personnes au minimum.

## Annulation

### **De votre part :**

Toute annulation ou modification de votre part avant le départ doit nous parvenir par lettre recommandée avec A.R. La date d'accusé de réception de cette lettre, est la date qui sera retenue comme date d'annulation pour le calcul des frais. Le montant des sommes retenues est calculé selon le barème suivant :

- A plus de 30 jours : somme forfaitaire de 45 € par personne non remboursable par l'assurance.
- De 30 à 21 jours : 25% du montant
- De 20 à 8 jours : 50% du montant
- De 7 à 2 jours : 75% du montant
- A moins de 2 jours ou non présentation au départ : la totalité du montant dû.

Ces sommes (sauf le montant à plus de 30 jours), vous seront remboursées par l'assurance en cas d'annulation justifiée si vous avez pris une telle assurance. L'assurance n'entre en vigueur qu'à partir de 30 jours avant le départ, ce qui implique que la somme forfaitaire de 45 € par personne ne sera pas remboursable par l'assurance. Le montant de

l'assurance et les frais de dossier ne sont également pas remboursables.

#### **Non présentation**

Votre non présentation ou retard au rendez-vous n'ouvre droit à aucun remboursement.

#### **Interruption de séjour**

Toute interruption volontaire de votre part n'ouvre droit à aucun remboursement, de même qu'une exclusion décidée par votre guide, pour niveau insuffisant ou non-respect des consignes de sécurité. En cas d'impossibilité à effectuer le séjour, vous pouvez nous proposer un remplaçant à la condition qu'il remplisse les mêmes conditions et que nous n'ayons pas déjà engagé de réservations à votre nom. Vous êtes tenus de nous en informer au plus tard 7 jours avant le départ par L.R. avec AR.

#### **Modification du contrat**

Toute modification du contrat ou du voyage de votre part à plus de 30 jours entraîne le paiement de la somme forfaitaire de 45 euros par personne. Pour une modification à moins de 30 jours, elle sera considérée comme une annulation avec la mise en application des modalités prévues en cas d'annulation de votre part. Dans tous les cas cette modification doit nous parvenir par courrier avec A.R

#### **De notre part :**

Si nous devons annuler un départ pour des raisons indépendantes de notre volonté, notamment en cas de force majeure (grève, sécurité du groupe, situation climatique dangereuse), nous vous proposerions alors différentes solutions de remplacement, au tarif en vigueur, ou le remboursement intégral des sommes payées. D'autre part certains de nos séjours étant soumis à un nombre minimal de participants, si nous devons annuler, en raison d'un nombre de participants insuffisants vous en seriez informé au plus tard 21 jours avant la date prévue. Aucune indemnité compensatoire ne sera versée. Afin d'éviter d'annuler un séjour en raison d'un nombre de participants trop faible, nous pouvons dans certains cas, vous proposer un supplément « petit groupe ».

## **Modifications durant le voyage**

Si les dates aller et retour de votre voyage sont modifiées, en raison d'une perturbation du transport aérien, maritime ou terrestre, nous ne pouvons en aucun cas être tenus pour responsable et vous demanderons une participation aux frais supplémentaires réels occasionnés. Si nous nous trouvons dans l'impossibilité de fournir une partie des engagements prévus, nous ferions tout notre possible pour les remplacer par des prestations équivalentes. Nous pouvons être amenés, lorsque les circonstances nous y contraignent, à substituer un moyen de transport à un autre, un hôtel à un autre, prendre un itinéraire différent ou annuler certaines excursions sans que ces modifications exceptionnelles donnent lieu à une quelconque indemnisation ; l'acheteur ne pourra les refuser sans motif valable. Dans tous ces cas, ces modifications ne pourront donner lieu à versement de dommages et intérêts.

## **Assurances**

Conformément à la réglementation, nous avons une assurance couvrant nos responsabilités professionnelles, mais elle ne peut se substituer à votre responsabilité civile individuelle. De plus, il est indispensable de posséder une garantie multirisque couvrant les frais d'annulation - rapatriement - maladie - accidents de voyage - secours en montagne - interruption de voyage.

Vu le caractère particulier de nos voyages et séjours et Conformément à l'article 23 de la loi du 13 juillet 1992, ETHNIX TOURS, ne saurait être tenue pour responsable et redevable d'aucune indemnité en cas d'annulation ou de changement, de dates, d'horaires ou d'itinéraires prévus, pour les raisons suivantes :
